can be made to thrive and live by finding for them a proper food, one easily digested, quickly assimilated, and composed of that which goes to enrichen the blood, build new flesh tissue, and impart strength to all the principle life maintaining centres, thus putting them in a condition to perform their functions normally and ward off disease. But one such food exists, it is

Bovinine

A powerful concentration of the life giving elements of lean beef, carefully compounded by a special cold process, and of such a nature that it can be retained by the most delicate stomach. Dr. Moses T. Runnels, of 8 E. oth St., Kansas City, writes:-"I believe the life of my daughter, now four and a half years old was saved by the use of Bovinine during her dentition. I know of nothing better in cases of exhaustion, due to irritable conditions of the stomach." Try for yourself a few drops in baby's milk, and see why over 25,000 doctors commend it.
